## Executive **Summary**

Coin Kings is a coin prediction app designed to provide an engaging and frictionless experience. At its core, the game allows players to participate in predicting the performance/price of various coins over different time frames, without the need of actual trading. Players make picks competing for spots on leaderboards and the opportunity to win prizes and gain paying followers.

We plan to introduce a token, \$CKS, to support our ecosystem in Q2 2024, followed by a P2P marketplace and Market Analysis.

## Platform **Highlights**

- Crypto Prediction App
- Leaderboards, analytics and prizes
- Monetisation via followers
- \$CKS Token Utility (revenue share and more)
- Coin Battles and Tournaments (P2P and team events)
- Portfolios (Roadmap Item)
- Quick Trade via DEX (Roadmap Item)
- Market Analysis (Roadmap Item)
- P2P market (Roadmap Item)

# THE PLATFORM

## Mission

To provide a simple coin prediction platform that allows users to follow the best. We offer a platform to appeal to both those experienced and newcomers alike. Our commitment is to deliver a user-centric experience that emphasises enjoyment and potential monetisation. We want to become the premier destination for top predictors to grow their brand.

## Vision

Our goal is to create the most trusted community of influencers in web3. Ultimately, we strive to empower our users, providing them with tools and opportunities to enhance their decision-making skills in the crypto space, all while giving them the opportunity to monetise their knowledge.

## Data

Coin Kings will offer coin prediction data to users and to external clients, such as financial institutions, allowing for additional streams of revenue. Our founder is well connected in the financial sector to help facilitate this.

## Strategic Aims

1. To be the number 1 prediction platform in web3.
2. To open the first P2P coin prediction marketplace.
3. To create advanced prediction markets for use by retail and corporations.
4. To create the first verified and trusted crypto influencer community.
5. To expand to other markets beyond coins.

# THE TEAM

Coin Kings has a seasoned team with a proven track record in the web3 space. We are composed of industry experts, including skilled blockchain developers, digital marketers, and project managers, all of whom have successfully delivered web3 projects in the past. The team's deep understanding of the crypto market dynamics, combined with our passion for gaming and community building, positions us well to create a successful platform.

**Duncan** Formerly a senior executive in the City of London at firms such as BlackRock, Duncan founded DustAid in 2017, partnering with Coinbase and over 30 others at that time to deliver the first ever crypto charity campaigns. He also founded the Climateers, the largest ReFi project on Hedera.

**Davin** is the founder of VC backed Solidified, the premier DAO sentiment-scoring launchpad

## GAME 1- **BONKERS**

**\$BONK**

Predict Price

**7 Days**

Daily Prizes

**\$500**

Airdropped in  
\$BONK

Our first game is a price prediction challenge centered around \$BONK. In this game, participants are invited to predict the future price of \$BONK within 7 days. A prize pool of \$500 worth of \$BONK tokens is set for those who top the leaderboard.

## GAME 2- **SOL100**

**\$SOL**

TOP 100

**7 Days**

Daily Prizes

**\$500**

Airdropped in  
\$SOL

Who will be the King of \$SOL? Simply choose which coin will do the best in the next 7 days!

# ROADMAP

Our roadmap for Coin Kings is a blend of technological advancement, user engagement, and platform growth. Initially, we will focus on fine-tuning the user experience, and establishing a strong community base. Following the launch, our efforts will shift towards integrating the \$CKS token, enhancing the game's features, and introducing new challenges and reward systems to keep the gameplay fresh and engaging. As we progress, we plan to expand our offerings by incorporating trading elements and more advanced predictive tools to cater to a wider audience. The later stages will see us exploring more partnerships, expanding our market reach, and continuously updating the platform to stay ahead.

Later iterations will also see the launch of our peer to peer coin prediction market place.

# TECHNOLOGY

## User Interface and Experience

Coin Kings prioritises a user-friendly interface, offering a seamless experience for both crypto-savvy individuals and newcomers. The interface integrates smoothly with popular Solana wallets, ensuring easy onboarding and interaction with the game's features.

## Solana

Coin Kings is built on the Solana blockchain, renowned for its high throughput and low transaction costs. This choice offers a robust and scalable foundation for the platform, enabling rapid and cost-effective transactions, which is essential for a dynamic gaming environment. Solana's Proof of History (PoH) consensus mechanism also ensures a secure and decentralized operation, which is crucial for maintaining the integrity of the game and its transactions.

## Automated Digital Agreements

The platform leverages Solana's advanced smart contract capabilities. These smart contracts govern some of the game's core mechanics, such as prediction outcomes, token transactions, and rewards distribution.

The smart contracts are designed to be transparent and tamper-proof, ensuring fair play and trust among users.

## \$CKS Token Integration

The native \$CKS token, integral to the platform, is utilised for various in-game activities. These include entry into exclusive prediction events, receiving rewards, and participating in community governance. We will also operate a revenue share model for all token holders.

## Security and Compliance

Security is a top priority, with regular compliance checks to safeguard the platform and our assets. Utilising Solana's robust security protocols, Coin Kings is committed to providing a safe and secure gaming environment. We will have the token independently audited before launch.

## Scalability and Future Integration

The technology stack is designed for scalability, allowing for future integrations and upgrades, such as introducing new game features and token utilities.

# COIN KINGS **REVENUE**

## Generation of Revenue

Coin Kings will generate revenue from taking a percentage of fees in the following streams:

**Follower fees:** Coin King shares all revenue from paid followers with the predictors on a sliding scale.

**Market fees:** Coin Kings takes 10% of all P2P activity on our marketplace.

**Revenue Share:** Our top traders will enjoy a percentage of revenue we earn.

## HOW IT **WORKS**

01

Select you favourite coin

02

Beat the market

03

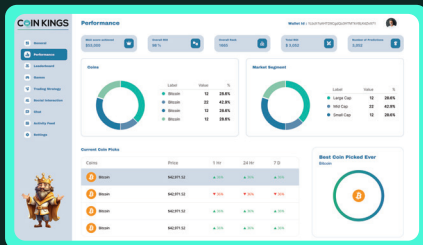

Win prizes and gain followers

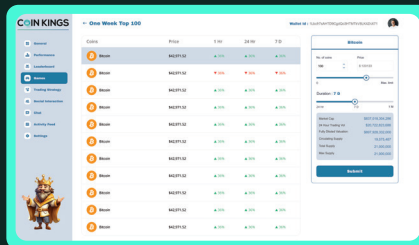

# THE PLATFORM

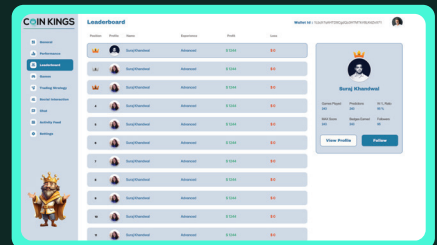

## User Profile with full history

Performance Stats

Coin Selection

Leaderboard

## FOLLOWERS

The more you build up a successful track record, the more paid followers you may attract. Followers can see picks of the best performers and are therefore able to then act on these picks as they see fit.

# \$CKS TOKEN\*

## Summary

**Total Supply:** 100,000,000

**IDO Allocation:** 15%

**Circ Supply:** 28,000,000

**Price:** \$0.01

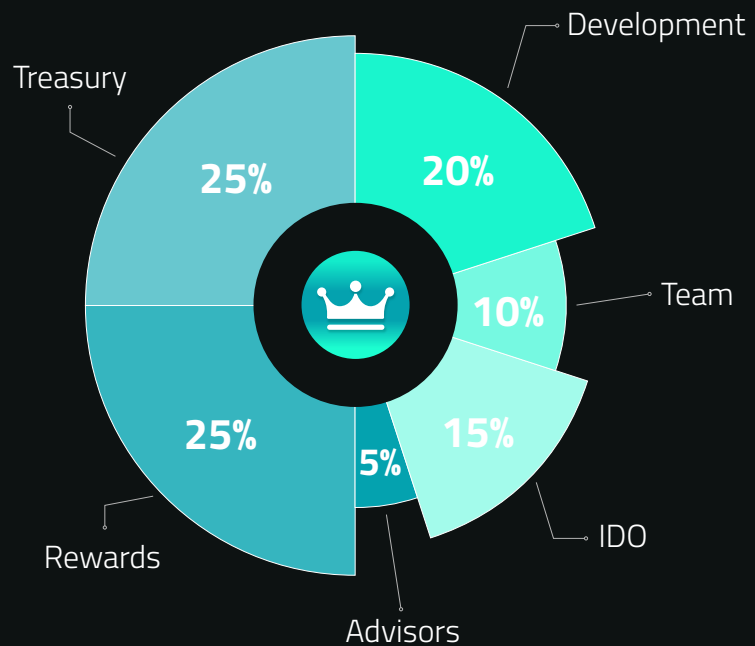

**MC:** \$280,000

## Utility

- Exclusive Games
- Revenue Share
- Buyback Scheme
- Discounts on Fees
- Exclusive Discord channel

## Tax

5% Taxes go towards rewards

Type	Percentage	Allocation	Schedule
IDO	15%	15,000,000	Unlock at TGE
Team	10%	10,000,000	Vesting over 6 months
Advisors	5%	5,000,000	Unlock at TGE
Rewards	25%	25,000,000	25% at TGE, 6 month vesting
Treasury	25%	25,000,000	Vesting over 6 months
Development	20%	20,000,000	10% at TGE, 6 month vesting

*\*please note tokenomics are subject to review and are not final\**

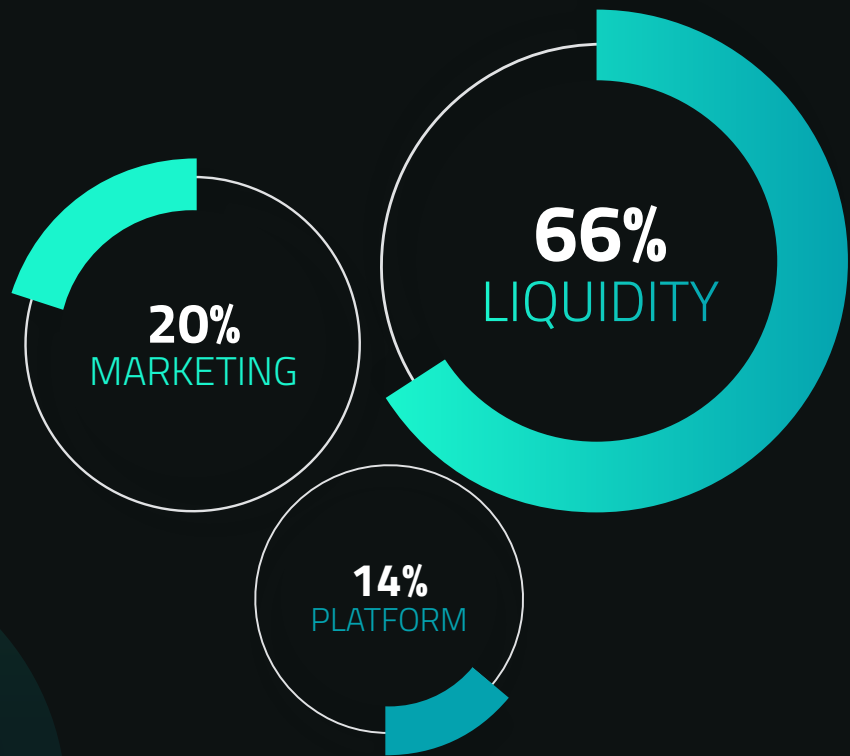

## USE OF FUNDS

**IDO raise: \$150,000**

Liquidity - **\$100,000**

Marketing - **\$30,000**

Platform - **\$20,000**

### Total Token Supply and IDO Allocation

The total supply of \$CKS tokens is set at a fixed number of 100 million. For the Initial DEX Offering (IDO), 15% of the total supply, which amounts to 15 million \$CKS tokens, is allocated.

### Pricing and Use of Funds

The \$CKS tokens are priced at \$0.01 each for the IDO, aligning with the fundraising goal of \$150,000. The use of the raised funds is strategically divided among various critical areas: 14% is dedicated to development, ensuring robust game and platform creation; 20% is allocated for marketing and community engagement to build a strong user base; 66% goes towards providing DEX liquidity.

### Liquidity Pool and Team Allocation

Tokens earmarked for creating a liquidity pool, essential for stabilising the market post-launch. The team allocation is set at 10% of the total token supply, vested over six months.

### Governance and Compliance

\$CKS token holders are granted governance rights, with a voting system that gives each token one vote, fostering community involvement in decision-making. Additionally, continuous legal compliance across all operating jurisdictions is emphasized, particularly concerning securities law and anti-money laundering regulations.

## DISCLAIMER

This litepaper is intended to provide educational information on the Coin Kings platform and does not constitute investment advice or solicitation to buy \$CKS Tokens. This document is not a prospectus, offer document, offer of the sale of securities, or any such similar document. No legal or business advice is contained in this document, and you should consult a legal or financial advisor before making any legal or financial decisions. By purchasing any \$CKS Tokens, you agree that your purchase is for the purposes of engaging with the Coin Kings network and using \$CKS Tokens for the utilities described in this document. This document was originally written in the English language, and any translation should be verified to confirm that no mistranslations or ambiguities have arisen. This project has not been audited at this time. By purchasing \$CKS Tokens or participating in the Coin Kings platform, you agree to accept the risks inherent in the cryptocurrency sector, including technical failure, breach of security, price volatility, failure to develop or continue project, and loss of funds. Please be notified that Coin Kings is not in any partnership with entities who represent themselves as customer support agents, providing customer support services via phone and/or social media and promising to help solve your issues for money. If you discovered what you believe is a fraud, phishing, or scam which impersonates Coin Kings, please contact us as soon as possible. Coin Kings protects user data using encryption as well as restricting access to authorized employees and storing data in secure buildings and systems. We use Secure Sockets Layered (SSL) encryption among other features, such as firewalls and virus detection. We offer two-factor authentication for users for added security, sending a code to your mobile device for access to your funds. We have taken all steps within our means to protect user data. Total protection is never possible under any company, including Coin Kings. Data submission is at your own risk. We are committed to protecting that data, and we will notify users should any malpractice or damages towards user data occur. Users are responsible for their own data, including choosing a safe password or agreeing to submit data to third parties companies including Coin Kings. We work with affiliate organizations and partners, and they may receive your data overseas depending on our own operations. For account holders, user data will remain in the EEA unless the European Commission has agreed to authorize another country outside of the EEA to receive data, or if we have entered a contract with a third party to ensure your safety. Cryptocurrencies are in a state of flux in terms of legal regulation worldwide, and their legal status may be subject to change. Cryptocurrencies are also often subject to cyberattacks such as phishing and Sybil attacks, and transactions are typically irreversible and difficult to trace. While every effort will be made to protect the security of the platform and the IDO, users investing in crypto or participating in the Coin Kings IDO do so at their own risk. Unforeseen tax liabilities or consequences may arise when transacting in cryptocurrencies due to the ever changing nature of crypto regulation in different jurisdictions.
